VIRGIL T. HELTON
CABINET SECRETARY

TO: All Spending Units

FROM: Virgil T. Helton, Cabinet Secretary

Department of Revenue

SUBJECT: FY 2012 Appropriation Request

DATE: August 4, 2010

The instruction guidelines and forms for the preparation and submission of the FY 2012 Appropriation Request can be accessed and printed from: http://www.wvbudget.gov/forms.htm. We will not be distributing printed copies.

For your convenience in preparing the FY 2012 request, we will provide the following:

- Division Evaluation Summary (Form AR1) as it appeared for FY 2011
- Division Account Summary (Form AR2, AR2A) for FY 2012 from your current approved Expenditure Schedule(s)
- Schedule of Federal Funds (Form AR3) as submitted for FY 2011 (if applicable) [Note: Instructions related to ARRA.]

Fiscal Year 2012 current level is limited to the same funding for all appropriated accounts as FY 2011 (less any one-time appropriations and surplus appropriations). Any requests for specific increases above the current level must be submitted as defined in this booklet.

Department Secretaries and Bureau Commissioners have the option of moving money between funds/agencies/programs as necessary as long as the Department/Bureau total (bottom line) for General Revenue and Lottery funds is equal to or less than the FY 2011 base.

Each request must fully explain the impact of funding at this level (see Current Level Impact Statement).

Long-term current program level funding continues to outpace estimated revenues, therefore, improvement packages will not be approved absent extraordinary circumstances. Requests for improvements above the FY 2011 appropriation may be submitted, only if necessary or per code requirement, but must include how the anticipated benefits related to the improvement will be measured and how these benefits relate to the program's mission. If a spending unit believes that an increased level of funding is necessary for a program, that spending unit should seek a corresponding reduction from within the spending unit. To ensure that any improvement package does not cause an increase above FY 2011 spending levels, you have multiple options that include, but are not limited to:

- 1. Activities may be increased, decreased, or deleted.
- 2. Programs may be increased, decreased, or deleted.

3. To accomplish a reduction in the personal services appropriation you may delete vacant positions or reduce them to the entry level associated with the title of the position. Filled positions or expenses may be shifted to non-General Revenue sources as long as the expenses are a legitimate charge to the non-General Revenue account as provided by statutory or other proper authority (no supplanting of federal funds, etc.).

The following shall be submitted to the State Budget Office, Building 1, Room W-310, Capitol Complex, Charleston, West Virginia 25305, on or before September 1, 2010. Extensions cannot be granted per WV Code §11B-2-3.

One copy of forms AR1 through AR11 shall be submitted to your cabinet secretary, if applicable.

A new form (AR12), has been included with instructions and must be completed by the Department of Administration Agencies only. This form must be submitted and approved by the Cabinet Secretary.

Two copies of the request shall be submitted to the Legislative Auditor's Office, Budget Division, Building 1, Room W-314, Capitol Complex, Charleston, WV 25305.

By law, failure to submit the appropriation request by September 1st may result in all of the agency's encumbering and expending of funds being held until the request has been filed with the State Budget Office and the Legislative Auditor.

Each department secretary will be contacted by my office to schedule a budget hearing relative to the appropriation request for certain agencies.

If you have difficulty accessing the instructions or forms, contact the State Budget Office at 304-558-0040 or budget@state.wv.us.

Division Account Summary (Forms AR2, AR2A)

General Information - This form is a summary of <u>each FY 2011 appropriated fund</u> of the division along with the corresponding federal fund(s) and nonappropriated Special Revenue fund(s). After the Appropriation Requests are reviewed and the recommendations are determined, these forms will be completed with appropriate amounts for inclusion in the *Executive Budget*. Please do not write in the column entitled "Recommendation."

There must be a separate AR2 filed for each General Revenue, Appropriated Special Revenue, and Federal Block Grant Funds for your agency.

For the FY 2012 Appropriation Request, it is not necessary to list each object code, with the exception of Employee Benefits. However, each activity that is "Unclassified" or is an appropriation for a program such as GAAP Project, Women's Commission, etc., must be shown using the following category breakdown: number of positions, Personal Services, Annual Increment, Employee Benefits (by object code), Total Current Expenses, Total Repairs and Alterations, Total Assets, and Total Other Disbursements (by category level).

Note: Total Other Disbursements will include all objects not associated with Current Expenses, Repairs and Alterations, or Assets.

NOTE: The lines following Unclassified shall be used to list specific appropriations by activity and category. Form AR2A is available if more space is necessary.

You may be required at a later date to provide more detailed information by fund or activity to the State Budget Office and/or the Legislature.

FY 2010 Actual State - This column shall contain the Actual expenditures for both appropriated and reappropriated General Revenue or Special Revenue funds, as well as all Federal Block Grants that are appropriated in the Budget Act.

- Amounts shall agree with the Auditor's Monthly Line Item (object code) Report, WVR 4020.
- <u>Do not combine fund types in this column.</u>
- Appropriated Special Revenue funds have priority over appropriated Federal Funds.
- <u>Do not include Activity 426 transfers/expenses in the actual column.</u>
- Number of positions should reflect the filled average FTEs for the actual expenditures.
- Report object code 160 and 163 actual expenditures under Employee Benefits regardless of activity that expenditure occurred.

FY 2011 Budgeted - For all fund types - Enter the amount budgeted, by object code, for Employee Benefits and by Category for all other items, for FY 2011 <u>as shown on the approved Expenditure Schedule</u> at the time of preparation of this request. If applicable, include all reappropriated amounts for each item of appropriation for General and Special Revenue.

Reappropriations - If applicable, enter the amount of reappropriated funds (see "FY 2011 Budgeted"), and subtract these amounts from the Gross Totals to arrive at the Net Totals in each column. This should balance to the approved expenditure schedules for each fund.

NOTE: The totals for Federal, Special, and Other should match Form AR7 "Estimated Disbursements FY 2011" column totals.

Program Name - Enter the Name of the Program for which federal funds are granted. (<u>Make sure each program has a unique identifying name</u>, e.g. "January 2010 Winter Storm" or "Flood Disaster, June 2010.")

Description - Briefly explain the purpose of the program and its goals. Please limit the description to approximately 50 words.

Grantor - Enter the name of the federal agency granting the funds.

Are State Matching Funds Required? - Enter "X" in the appropriate space provided.

Matching Formula - Enter the matching formula of this grant. If no State match is required, enter 100% Federal.

Request for Appropriation -Improvement above Current Level (Form AR4)

General Information - This form is designed to accommodate all requests for funds to expand programming over and above that which will be provided at the FY 2012 current level. All improvements or enhancements to a division's normal operation must be requested on this form.

Improvement packages will not be approved absent extraordinary circumstances. Requests for improvements above the FY 2011 appropriation may be submitted, only if necessary or per code requirement, but must include how the anticipated benefits related to the improvement will be measured and how these benefits relate to the program's mission. If a spending unit believes that an increased level of funding is necessary for a program, that spending unit should seek a corresponding reduction from within the spending unit. To ensure that any improvement package does not cause an increase above FY 2011 spending levels, you have multiple options that include, but are not limited to:

- 1. Activities may be increased, decreased, or deleted.
- 2. Programs may be increased, decreased, or deleted.
- 3. To accomplish a reduction in the personal services appropriation you may delete vacant positions or reduce them to the entry level associated with the title of the position. Filled positions or expenses may be shifted to non-General Revenue sources as long as the expenses are a legitimate charge to the non-General Revenue account as provided by statutory or other proper authority (no supplanting of federal funds, etc.).

FY 2012 Requests - Enter the request for this fund in the same manner as previously outlined (see Form AR2) for General, Federal, Special, and Other funds in the respective columns and the total request from all sources in the Total column. <u>DO NOT</u> include the disbursement of any request for improvement above the current level on the other forms (except AR8) in the Appropriation Request package. <u>Do</u> include revenue information on the necessary forms. Indicate on form AR4 if this improvement request is a one-time expenditure or an ongoing annual expense. Also, include the program name, activity name(s) and activity number(s).

Anticipated Cost Savings - Please describe the anticipated cost savings this improvement will have on your agency budget if approved, if any.

Justification/Anticipated Benefits - Please justify in precise and explicit terms exactly why this improvement is necessary, what objective this improvement will accomplish, and the payback period, if applicable. If this improvement will become an ongoing program, explain the long-range objectives. Indicate by marking on the form if this is a "onetime expenditure" or "ongoing expense."

All improvement requests must include the anticipated benefits as they relate to the program's mission/performance measures and the effects to the program if this improvement is not funded. Improvements above Current Level will not be considered without this information.

Any improvement request resulting from a court order or statutory mandate shall be explained in the justification section of Form AR4 identifying the date and reference of the court order or statute.

If the increased funding is for an appropriated Special Revenue or Federal Fund, make sure adequate revenue is available and reflected on Form AR7.

A separate form must be completed for each project with a total cost of \$100,000 or more. A project may include several categories with a combined total cost of \$100,000 or more (e.g., \$90,000 construction, \$15,000 land acquisition).

In addition, a separate form must be submitted for each major equipment project of \$50,000 or more that is not included in any other project. A major equipment project is the purchase of a single item (e.g., a bulldozer) or like items (e.g., fleet of vehicles, computer equipment).

FY 2014 - Enter the total amount of funding that will be required during FY 2014, regardless of whether the funds will come from current level or improvements.

FY 2015 - Enter the total amount of funding that will be required during FY 2015, regardless of whether the funds will come from current level or improvements.

- Purchase of a single item of equipment with a total cost of \$50,000 or more (e.g., a bulldozer);
- Purchase of like items of equipment with a total cost of \$50,000 or more (e.g., five [5] automobiles);

Cost of Financing - Includes, but is not limited to, bond counsel, trustee counsel, underwriter counsel, credit enhancements, taxes, accountant fees, financial advisor fees, rating agency fees, debt service reserve, and interest. Do not include payment of principal.

TOTAL - Total of all expenditures.

Debt Service - The cost of paying principal and interest on borrowed money according to a predetermined payment schedule. Enter the actual amount of debt service payments to be made during each fiscal year.

Start/completion date - Indicate dates of project.

Financed or leased? - Mark "X" in appropriate space provided. If "yes," state the annual interest rate.

Method of financing/leasing - Describe the terms of the finance options or lease contract.

Describe any special revenue funds, federal grants, requests for supplemental appropriations or improvements, or any proposed bonds, debt service, or other methods of financing options that are being considered.

Description and justification of project - Give a concise narrative explanation of the project and what is to be accomplished. The description should include the location of the improvement, its size or dimensions, and the type of construction proposed (if any). If the exact location of the project has not been determined, please indicate the proposed site(s). If the project is an equipment purchase, describe the nature of the purchase and its related benefits. Also, indicate the need for the proposed project and the reasons for selecting the proposed time period. Please cite any compliance issues (ADA, OSHA, etc.) or legal mandates that necessitate this project.

You are encouraged to identify the anticipated nonfinancial impact of significant nonroutine capital expenditures. Examples—cleaner environment, improved response time by public safety employees, smaller class sizes in schools.

If you are requesting an improvement package or supplemental appropriation to fund this project, or if the proposed funding is otherwise uncertain, describe the effect on the project if a portion of the funding were not provided. (For example, if 50% of the funds for a project are from your current level request and 50% are being requested as an improvement, what will be the status of the project if the improvement is not granted? Will the other funding still be used to execute a portion of the project? Will the project be downscaled to match the available funds? Will the project be canceled completely? If so, where will the current level funds be used?)

IMPACT ON OPERATING BUDGET:

Describe how this project will affect your agency's operating budget - Describe the nature of the increases/decreases shown in the following item (e.g., Why are additional personnel needed? What classification of personnel are needed? Why will this project cause utility costs to decrease/increase? Why will this project cause maintenance costs to decrease/increase?).

Annual Impact on Operating Budget - Provide the first fiscal year of any impact on the operating budget. Indicate any anticipated increase or decrease in operating costs resulting from this project for the fiscal years indicated. (Increases are to be shown as positive (+) numbers; decreases are to be shown as negative (-) numbers.) If no impact is anticipated, you must indicate by entering zeros. Costs listed should reflect estimated expenditures and/or savings for the first full year of operation. For example, construction of a water main would not increase operating costs, but may produce some savings. Construction of a new maintenance facility may increase operating costs for utilities and supplies. Future year costs should be addressed in the project description narrative. Current year estimates for operating costs are to be based on FY 2010 dollars, and any future costs described in the narrative should not be adjusted for inflation.

Division Program Summary (Form AR11)

Programs - List programs from Form AR10. Enter **gross totals** for FY 2010 Actuals, FY 2011 Base, and FY 2012 Current Level Request. A separate program summary, Form AR10, must be completed for each program listed on the Division Program Summary, Form AR11. Enter total reappropriations and the net total program cost for all programs.

Expenditure Summary - Consolidate all programs by major category of expenditures (Number of Positions, Total Personal Services, Employee Benefits, Unclassified).

On AR11, total programs should balance under the Programs Names section and the Expenditure Summary section. Totals for the FY 2011 Base and FY 2012 Current Level Request should match the totals of all AR2/AR2As for the division.

NOTE: Only one AR11 should be submitted per organization.

Narrative Instructions

Purpose

The budget narratives provide brief descriptions of the agencies in state government. Each narrative explains an agency's mission and shows (through operations, goals/objectives, and performance measures) how that mission is to be and is being accomplished.

Department of Administration Agencies are excluded from providing the Narrative information due to the submission of the Responsible Government Planning and Budget Form (AR12). For instructions see page 45.

Overview

Consider carefully the *Goals/Objectives* and *Performance Measures* to represent your agency. (A division's *Goals/Objectives* should relate back to those of the department, bureau, or constitutional officer, and the department and bureau's *Goals/Objectives* should relate back to the "Governor's Vision 2012.")

A budget narrative is not the place to describe everything an agency does.

Organization

The narratives organize state agencies into these levels:

- The highest level is the *constitutional officer, department, or bureau*: established by state law.
- The next level down is *division* (also referred to as an agency or organization): a primary entity of government.
- The lowest level, *program*, must match the programs on an agency's FY 2011 Appropriation Request forms AR10 and AR11.

Please review the section levels on the "Checklist of Requested Information" page to determine what information should be submitted for each agency.

Preparation

- Always begin with the narrative file as emailed to your agency—it contains the final version of
 the changes made last year, including those made during the proofing process.
 If your agency is unable to read the file, contact the State Budget Office.
- Changes to an agency's organizational chart (if applicable) should be written directly on a printed copy.
- The programs and the Annual Program Costs included in your narrative should match the programs listed on the AR10 and AR11 forms for FY 2011.
- Follow carefully the directions for changing the "Estimated" and "Actual" statistical performance measures. Details for these measures are located at the end of this chapter under "Updating Statistical Performance Measures."

Narrative Formatting Guidelines

- Do not add any visual graphics (such as bullet points or check marks) to the narrative. Add text, but not graphics.
- The narrative is in "styles." Avoid changes to the "styles," fonts, or justification.
- Use a single space (not two) between sentences.
- Avoid manual page breaks ("Control" + "Enter"). Let your narrative flow across pages.
- Every acronym in the narrative must be spelled out in the text (the first time it is used) and included in a separate alphabetical list submitted with the Appropriation Request.
- Use tabbed columns for the multi-column, statistical performance measures. (The columns are not required to line up.)
- Use a single tab between each column. (Do not use the spacebar or tab key to align.)

- Do not use a table in the final version, but you might choose (for your convenience) to convert from text to table and back. (Call the State Budget Office if you need the steps to do this.)
- If a multicolumn performance measure uses statistics with decimal points, use the same number of decimal points across that specific row.

Submitting the Narrative

On or before September 1, 2010, send an electronic copy (use the same email address from which you received your starting narrative copy), and submit one printed copy of your budget narrative, alphabetical acronym list, and org chart (if applicable) to the State Budget Office with the Appropriation Request forms. The narratives will be formatted, edited, and returned to the agencies for hard copy proofing before the FY 2012 Executive Budget is printed.

If you have any questions regarding the narrative, please contact the State Budget Office at 304-558-0040 or send an e-mail to <u>state.budget.office@wv.gov</u>.

Narrative Instructions for Constitutional Officers/Departments/Bureaus

ORGANIZATIONAL CHARTS should be programmatic charts, not staff charts. They may range from the simple to the complex and may delineate relationships between agencies and/or other groups such as commissions or boards.

MISSION STATEMENT - The mission statement should explain why your agency exists and what it foresees for the future. It should respond to the following questions:

- What unique product or service do you provide?
- Who is your intended primary client or target group?
- Why is your product or service of benefit?

Example:

The mission of the West Virginia Department of Education and the Arts is to provide educational opportunities and cultural enrichment to West Virginia's citizens, to help the state achieve its education and arts goals, and to strengthen the competitiveness of and opportunities for the state's workforce.

OPERATIONS (include only if there are no separate divisions) – (For explanation and examples, see *Operations* under "Narrative Instructions for Divisions.")

GOALS/OBJECTIVES

- **Goals** are established by the agency (if agency appropriate, they should reflect the Governor's Vision 2012). Goals are issue-oriented statements that declare what an agency intends to accomplish to fulfill its mission.
- **Objectives** are detailed, <u>quantifiable</u>, <u>time-specific</u> statements of activities related to achieving the goals. They are <u>targets</u> for specific agency or program actions.

When there are no separate divisions, the agency needs to have quantifiable objectives. When there are separate divisions for constitutional officers/departments/bureaus, objectives tend to be less quantifiable. In those cases, the divisions have the specific objectives that should relate back to the goals/objectives of the higher level.

Divisions must be placed in alphabetical order.

Example:

Encourage an available and competitive insurance market for all lines of insurance, thereby providing viable choices for the West Virginia consumer.

Review all properly submitted rate filings within 60 days of receipt.

PROGRAMS (may be listed IF there are no separate divisions) – (For explanation and examples, see Programs under "Narrative Instructions for Divisions.")

PERFORMANCE MEASURES (only if there are no separate divisions) – (For explanation and examples, see *Performance Measures* under "Narrative Instructions for Divisions.")

Narrative Instructions for Divisions

MISSION STATEMENT - The mission statement should explain why your division exists and what it foresees for the future. It should respond to the following questions:

- What unique product or service do you provide?
- Who is your intended primary client or target group?
- Why is your product or service of benefit?

Example:

The West Virginia Division of Highways is responsible for maintaining a safe and efficient highway system that will meet the needs of West Virginia citizens and all other individuals traveling through the state.

OPERATIONS – The Operations section details the activities and/or functions of the division that are relatively unique to the division (do not list items such as payroll, purchasing, inventory, administrative support, personnel issues, prepare reports, handle inquiries, etc., since most divisions do these things).

Example: Operations Establishes and enforces paternity, child support, and medical support orders. Educates parents and prospective parents. Facilitates parental responsibility to minimize the taxpayer burden.

GOALS/OBJECTIVES -

GOALS are established by the agency and reflect the goals of the constitutional officer, department, or bureau. They are issue-oriented statements that declare what an agency <u>intends to accomplish</u> to fulfill its mission.

OBJECTIVES are detailed, quantifiable, time-specific statements of activities related to achieving the goals. They are <u>targets</u> for specific agency or program actions.

Consider presenting a variety of short-term, medium term, and long-term objectives that relate to the efficiency and effectiveness of the division.

Example: Develop cost control measures to maximize use of available resources. Maintain overtime at the seven State-owned and operated hospitals as a percentage of total salary cost at a level not to exceed five percent. Reduce diversion costs to \$8 million in 2010, and redirect savings (up to \$2 million) to increase community-based services (per Hartley Directive) for 2011 and 2012.

PROGRAMS - A *Program* is a group of related activities performed by one or more organizational units to accomplish a function for which the government is responsible. (A unit can be a division, section or workgroup.)

- An agency determines the Programs.
- Programs and financial details match the AR10s and AR11 (see beginning of this section).
- For each program, you must include the following:

- A. A <u>brief</u> description of the program (one or two sentences).
- B. Estimated FTEs associated with the program as reported on AR10 .
- C. Estimated program cost as reported on AR10 at current level request.
 - 1. Program cost should include the total dollars for delivery and administration/support of the program (unless the administration/support function is a separate program.)

 Do not include improvements above the current level requested.
 - 2. Program totals must match the totals of the <u>current level request</u>.

The *Programs* must be in alphabetical order, but may be grouped by sections (sections also must be in alphabetical order).

Example: Professional Preparation The Office of Professional Preparation provides assurance that personnel who staff West Virginia schools meet state board criteria for preparation and licensure and are highly qualified and effective with regard to their specific assignments. FTEs: 18.00 Annual Program Cost: \$4,971,240

PERFORMANCE MEASURES - *Performance measures* are a tool used by all levels of management, as well as the public, to determine whether a program is accomplishing its mission efficiently and effectively.

- Reflects the division's extent of achievement
- Describes what you do directly for your customers
- Likely to be viewed by the public as a benefit

Performance measures should be efficiency or effectiveness type.

- EFFICIENCY Reflects the relationship between work performed and the resources required to perform them
- EFFECTIVENESS Depicts the degree to which performance objectives are achieved or reflects the quality of performance

Performance measures should NOT be workload measures.

WORKLOAD measures indicate the amount of work performed or services received.

- These describe the necessary work done daily to deliver the program.
- They reflect more of the work performed rather than the extent of achievement of the program's objectives.
- They are not likely to be viewed by the public as a benefit.

Many examples of workload measures include simply counting things (e.g., registrations, licenses, phone calls, letters sent, complaints processed, hearings held, vehicles weighed, tests conducted, persons trained).

As an example, if a performance measure lists only how many people were trained, it's a workload measure because there's no correlation to anything meaningful (it doesn't inform the reader whether or not more people should have been trained or how successful the effort was).

However, if a division's objectives include specific training for a specific quantity of people during a specific time period, then measuring the percentage of those trained would be a measure of effectiveness rather than workload. (Such an objective should be directly related to the division's mission.)

Training courses held	#	#	#	#	#	#
Employment interviews held	#	#	#	#	#	#
Loan applications processed	#	#	#	#	#	#

Four steps to meaningful measures:

- **Step 1:** Define the mission.
- **Step 2:** Determine the goals and/or specific objectives.
- **Step 3:** Identify performance results of the specific objectives. (Performance results can be classified into three types: effectiveness, efficiency and workload.)
- **Step 4:** Develop performance measures.
 - Performance measures must be directly linked to an agency's objectives.
 - Choose measures that can be used for planning, to quantify the performance of the agency, as well as to monitor and evaluate the degree of success in achieving results developed in Step 3.
 - Performance measures should be reported in State fiscal years (there are a few exceptions).
 - Performance measures should be based on current-level funding.

A division should have one to three good *Performance Measures* with a maximum of five.

Agencies are not obligated to use the same performance measures as the previous year; as goals and objectives change and improve, so may performance measures change and improve.

The focus for the FY 2012 performance measures is to show:

- The trend of your division's actual performance for the three most recent fiscal years (FY 2008 through FY 2010)
- The FY 2010 estimate of your division's performance (<u>identical</u> to what was in last year's book for the FY 2010 estimate if the measure is the same)
- The performance level objectives the division is trying to achieve in FY 2011 and FY 2012 based on current-level funding.

FY 2011 Estimates are NOT required to match what was in last year's narrative. They are targets and are subject to change.

For the tabbed column performance measures (six column measures), each objective must be repeated with the exact wording as used in the Goals/Objectives section earlier in the narrative. The performance measure follows each related objective. (See examples below.)

UPDATING THE DATA FOR FY STATISTICAL PERFORMANCE MEASURES

- 1. Begin with the narrative file received from the State Budget Office.
- 2. Delete the tabbed columns marked in gray as shown below (the format of your statistical performance measures should look similar to the following ones). The remaining three groups will be the first three for the FY 2012 budget document.

NOTE: Do NOT change the numbers in the "remaining three" groups.

Example (How to Update from FY 2011)

	Actual <u>2007</u>	Actual <u>2008</u>	Estimated 2009	Actual <u>2009</u>	Estimated 2010	Estimated 2011
Money returned to consumers (in millions)		2.48		2.13	2.25	2.35
Graduates within six years	38.3%	39.1%	40.0%	39.2%	41.0%	42.0%

3. Add the three tabbed columns marked in bold (Actual 2010, Estimated 2011, and Estimated 2012).

Example (How to Update from FY 2011)

Fiscal Year	Actual <u>2008</u>	Actual <u>2009</u>	Estimated 2010	Actual <u>2010</u>	Estimated 2011	Estimated 2012

Graduates within six years	39.1%	39.2%	41.0%	39.6%	41.5%	42.5%

^{*}For the state fiscal year exceptions, the few agencies with (preapproved) performance measures expressed in calendar or federal fiscal years, see the previous page for column header examples.

Glossary

This section identifies and defines certain key concepts and terms commonly used in the West Virginia Appropriation Request Process:

ACTIVITY: Activity refers to the individual item of appropriation as listed in the Budget Act.

ANNUAL INCREMENT: Every eligible employee with a total of three (3) or more years of service shall receive an annual salary increment equal to \$60 times the employee's years of service.

APPROPRIATED FEDERAL FUNDS: Those federal funds listed in the Budget Act as Federal Funds in accordance with Chapter 4, Article II, of the Code of West Virginia. Appropriated Federal Funds are appropriated in Title II, Section 6, of the Budget Act. These funds shall be shown under the column heading "Federal."

APPROPRIATED SPECIAL REVENUE FUNDS: Specific revenue sources that by legislative enactments are not required to be accounted for as General Revenue. Appropriated Special Revenue Funds are appropriated in Title II, Sections 2 and 3, of the Budget Act. These funds shall be shown under the column heading "Special."

AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009 (ARRA): Federal funding bill passed February 2009 as an economic stimulus package. The money set aside by this program will go towards projects such as improving education, building roads, public transportation, criminal justice, health care, and many other areas. The government is hoping that this package will create jobs, and provide many other economic benefits.

BASE BUDGET: The funds provided for the current fiscal year (less one-time or surplus appropriations) to a department/division to establish a starting point for the current-level in the appropriation request process for the next fiscal year.

<u>BUDGET ACT/BUDGET BILL</u>: The legislation that appropriates the expenditures required to operate state government for each fiscal year.

BUREAU: The bureaus for the executive branch of State government which are established by Chapter 5F of the West Virginia Code.

CAPITAL EXPENDITURE PROJECT: Any major construction, acquisition, or renovation activity that adds value to a government's physical assets or significantly increases the useful life.

COST OF FINANCING: Includes but is not limited to bond counsel, trustee counsel, underwriter counsel, credit enhancements, taxes, accountant fees, financial advisor fees, rating agency fees, debt service reserve, and interest. Does not include payment of principal.

CURRENT LEVEL: The Current Level for FY 2012 is defined as the same funding level for all appropriated accounts as in FY 2011, less any "one-time" appropriations or surplus appropriations.

<u>DEBT SERVICE:</u> The cost of paying principal and interest on borrowed money according to a predetermined payment schedule.

<u>DEPARTMENT</u>: The departments for the executive branch of State government that are established by Chapter 5F of the West Virginia Code.

<u>DIVISION</u>: Each primary entity in the State Appropriation Request Process that is appropriated in the West Virginia Budget Act is recognized as a division. May also be referred to as an agency.

EXCESS LOTTERY: Those appropriations in Title II, Section 5, of the Budget Act. These funds shall be shown under the column heading "Special."

FEDERAL BLOCK GRANTS: Those federal funds listed in the Budget Act for designated accounts, whose funds are appropriated from Federal Block Grants in accordance with Chapter 4, Article II, of the Code of West Virginia. Appropriated Federal Block Grants are appropriated in Title II, Section 7, of the Budget Act. These funds shall be shown under the column heading "Federal."

For budget purposes, only the direct recipient of federal funds will include them as "Federal." Agencies that receive federal funds from other state agencies will report them as "Special" or "Other" funds.

FEDERAL MATCH: Federal funds received on a formula basis as a supplement to state funds that are being expended. For example, in a 80/20 federal match program, if the State expends \$20,000 of its own funds on a project, it will receive a \$80,000 match from the federal government to further fund the project.

FISCAL YEAR (FY): The State of West Virginia's fiscal year runs from July 1 to June 30.

FULL-TIME EQUIVALENT POSITION (FTE): A position with a full-time equivalent equal to 1.00 would indicate that the employee works the full work schedule established by the appointing agency, usually 2,080 hours per year. Any employee who works less than full-time would have an FTE of less than 1.00 which would be based on the number of hours worked per year in relation to the total hours required for full-time. Example: A person who works for an agency 20 hours a week, 1,040 a year, would have an FTE of 0.50.

GENERAL REVENUE FUND: Shall mean the general operating fund of the State and includes all money received or collected by the State except as provided in Chapter 12, Article II, Section 2, of the Code of West Virginia or as otherwise provided.
